

# THE WATERSLIDE GUIDE

WHITEWATER®  
Waterparks

# THE BEST WATERSLIDES IN THE WORLD

Yas Waterworld, Abu Dhabi, UAE

WhiteWater's waterslides are the best in the world. Our award winning products and industry leading technology can be found in world-renowned waterparks globally. Offering superior quality fiberglass and expertly engineered slide path designs, our waterslides are optimized for safety and fun.

**A Truly Global Company** WhiteWater waterslides can be found on every continent in the world except Antarctica, with over 5000 installations worldwide. Our 21 international offices provide access to WhiteWater employees that can answer your questions in 24 different languages.

**Award Winning** Throughout the past 34 years, our waterslides have received over 100 prestigious industry awards, such as IAAPA Best New Product Awards, WWA Leading Edge Awards, Amusement Today Golden Ticket Awards as well as honors from local, national and global news and industry media.

**Innovations and Patented Technology** Our dedicated Product Development Team is constantly innovating, improving and developing ORIGINAL waterslides. With a comprehensive understanding of the market and emerging trends in technology, WhiteWater is continuously evolving and perfecting products and manufacturing processes. WhiteWater has an industry leading 125+ patents issued.

**Master Planning and Design** We don't just sell waterpark products but provide the expertise to plan, design, install, and deliver the ultimate WOW experience. With the best architects, designers and engineers in the world, we create waterparks that are in harmony with the environmental surroundings and maximize the site potential.

# ANACONDA™

*The world's largest diameter waterslide!*

Build anticipation as riders plunge into the dark, serpentine depths of the world's largest diameter waterslide. Intense vertical banking sends riders 4.6m (15ft) high on the wall of the Anaconda™ to deliver unstoppable thrills.

WWA Leading Edge Award  
Aquaventure Waterpark, UAE  
2014

Vehicle  
4, 6 or 8 person family raft

Hourly Capacity  
540-1080 guests

So large it swallows other waterslides whole!

WhiteWater's revolutionary Flume-thru-Flume™ technology allows additional waterslides to pass through the belly of the Anaconda™. Atlantis the Palm, Dubai features the iconic Anaconda™ with two body slides inside offering a unique and memorable experience.

More Oscillations Than Any Other Waterslide

## RATTLER™

*A waterslide that is shaking things up!*

Uniquely engineered rattles send guests into unexpectedly fast near vertical oscillations. With different lengths of cylinders, the Rattler™ lets riders experience completely different sensations since each rattle is longer than the last on this next generation waterslide.

Hourly Capacity  
360-540 guests

Benefits of integrating custom theming:

- Tell a story throughout the waterpark or individual waterslide
- Enhance your guests' imagination and overall experience
- Extend your hours with addition of a light and sound package
- Generate additional revenue with merchandise opportunities such as "I was swallowed by the Python!"

# CONSTRUCTOR

*Not just your ordinary waterslide!*

In complete darkness riders experience a series of spine-tingling spirals created by the tightest, highest banking turns in the industry. The unique fiberglass pattern produces a snake-skin like appearance that is a visually appealing addition to any waterpark.

# Winner of IAAPA Best New Product Award

**ORIGINAL signature waterslide at its best!**

This one goes down in history for revolutionizing the waterpark industry by adding an iconic experience to a traditional waterslide. Featuring a steep drop that takes riders up a near vertical wall for a moment of weightlessness and into free fall, riders surmount a surprise hump before splashing into the shutdown area.

**RATED FAVOURITE**

## DESIGN SERVICES

*We design with purpose.*

Our design process is reasoned, rational, precise, delivered and collaborative. Beginning with a concept design, our designers move to completing architectural schematic designs and engineering drawings, creating synergy between all facility activities. WhiteWater's team of talented designers, architects, landscape architects, and thematic designers live by the philosophy "if you can dream it, we can create it".

# TECHNICAL SPECIFICATIONS

## Does each WhiteWater waterslide have a list price?

As WhiteWater customizes each waterslide to fit your requirements, the price depends on many factors that can change depending on the design.

- Required towers, stairs, railings, and other structural supports
- Slide path length and required fiberglass
- Conveyor or vehicle support system
- Launch system

## How are all the activities that go into my project coordinated?

Scheduling is coordinated by WhiteWater's dedicated Master Scheduler along with a dedicated project management team who works hard to manage all activities required to complete your project. Our in-house operations provide us with complete control. We provide realistic completion dates and work to offer the most on-time delivery in the industry.

## Will I need a conveyor system?

It is recommended to have a conveyor system for any waterslide that utilizes ride vehicles larger than 3 person family rafts. A conveyor system provides easy raft retrieval for guests and ensures maximum safety for young guests.

## What are the different ride vehicles?

Each waterslide is engineered for specific ride vehicles and weight restrictions.

Ride Vehicle	1 - 2 person inner-tube	4 person family raft 1.7 m (67 in) Raft	6 person family raft 2.4 m (96 in) Raft
Weight Restriction	181 kg (400 lbs)	272 kg (600 lbs)	454 kg (1000 lbs)

\*8 person family rafts available for select waterslides

## What are my options for enhancing my waterslide and making it unique?

SilkTek™, SilkGel™, Slideboarding, Theming, Translucent Fiberglass, AquaLucent™, Flume-thru-Flume™ technology and sound and light packages.

## Warranty

WhiteWater West Industries warrants against all the manufacturing defects in the fiberglass and steel support components for twelve (12) months.
