# Combine Multiple Features to Create an Interactive Spray Park

**AquaSpray™**

*A playful adventure for all ages!*

AquaSpray™ is a series of individual water elements that kids can interact with and be sprayed by. A myriad of bright and colourful AquaSpray™ elements add another layer of excitement and energy to any aquatic facility, no matter the size. Deliver high entertainment value by ensuring even the littlest visitors have somewhere to play. Interactive activities inspire learning for developing minds by demonstrating the movement and the effects of water. Choose from a large variety of AquaSpray™ elements and create fun for the whole family.

**Ideal for small budgets and facilities!**

Infuse extra splash and spray into an AquaPlay™ structure, wave river or aquatic facility by integrating unique AquaSpray™ elements. From single floor jets to larger structures, you can combine multiple features to create a dynamic spraypark. Participants can choose to stay dry and control the water effects from the side or cool off by playing in and around the jets, falls, buckets and more. AquaSpray™ is designed to adapt to low water requirements and utilizes a premium coating system to ensure the product looks brand new for years.
