XTREM SIMULATORS

MAKE ALL XTREM SIMULATORS WITH THE BEST MOTION AND EFFECTS SYSTEM

CUSTOMIZED XTREM SIMULATORS

One motion based with best precise movements for the best immersive sensations

Why trust this motion base ?

With a full range of simulators 4D/5D from 1 to 10 special effects, **CL Corporation** is able to respond specifically to each specifications of its customers. Electrical, 2DOF, 3DOF, 6DOF VR or projection, special effects or non-effects in the armrests, in the room or in effect columns, etc... Trust the leading European manufacturer of 4D seats. With a life span of 7 years, **CL Corporation** installs D-Box cylinders to their simulators technology, cylinders having the greatest strength of the market, and exemplary life. Over 6,000 4D seats and dynamic simulators installed worldwide, in amusement parks, science museums, children's recreational areas, large companies, etc... **CL Corporation** will orient you to the best range that suited your needs.

Customized ?

With this motion base, **CL Corporation** is able to simulate all possible moves. With their other technologies, the company is also able to provide tailor-made simulators with other sensations and other attachment points, as simulators parachutes, of ballooning or motorcycle for example !
