

BEYOND HUMAN LIMITS

produced in partnership with:

How do you perceive risk?
Do you seek thrill and excitement?
What makes an extreme sport athlete?
Do you have the personality and motivation?

Science North's newest traveling exhibition takes visitors inside the minds and bodies of extreme athletes to explore the psychology, physiology, and physicality of some of the most extreme activities in the world.

In this high energy exhibition visitors experience the thrill of extreme sports in exciting, interactive exhibits and immersive environments. Explore the technology, creativity and innovation inherent in these sports. Meet passionate athletes and hear their incredible stories, and take in the artistry, motivation, and thoughtfulness that goes into everything they do.

Dimensions
• 6,000 sq ft

Highlights

- Enter the 360° Immersion Room. Experience the sights, sounds and sensations as the waves spiral and roll around you - you are at the center of the action!
- Tap into your inner child - crawl, hop, roll and vault - to trace in the footsteps of parkour athletes as they guide you through the training, the movements and the state of mind that guides this sport.
- Hear inspiring stories from passionate athletes and discover what motivates them to engage in extreme activities and how the skills and abilities gained in their disciplines spill into the way they live their everyday lives.
