

IMMERSIVE INTERACTIVE RACE TUNNEL

A VIRTUAL ADVENTURE SPACE BY project:syntropy

INTERACTIVE RACE TUNNEL

The interactive race tunnel by project: syntropy is a family-friendly mixed reality fun attraction for each FEC or - as part of a themed science exhibition - an attraction for any Science Center.

RACE AGAINST AN ANIMAL!

Run on a real track against a virtual animal and learn which animals can be beaten and which you will never be able to outrun - you will be surprised!

RACE TUNNEL NEVER GETS BORING!

- Virtual animals are selected randomly
- More virtual animals can be added on demand
- Custom animals, mascots, creatures can be added
- Race tunnel system can be re-used for new custom made applications - simply switch between races

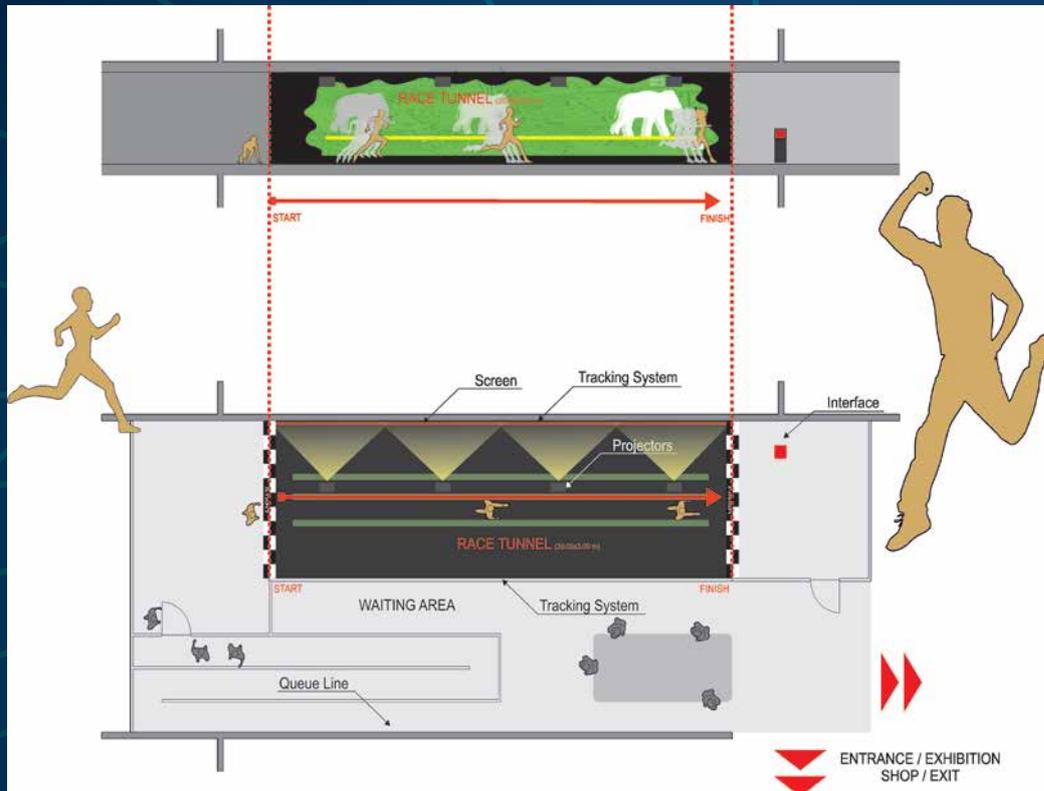

YOU DREAM IT - WE BUILD IT!

RACE TUNNEL IS SCALABLE AND FLEXIBLE IN ALL ASPECTS OF AN ATTRACTION

- Environmental: the technical elements projection and tracking system are fully customizable (room size, visitor flow etc.)
- Content: graphics, animations and even the complete game can be exchanged, upgraded or renewed easily using a content management system and modular development - without any changes in the setup
- Low cost of operation: durable components for 24/7 use and a high level of automation guarantee a very low fault rate and low maintenance cost combined with a long lifetime of the attraction
