creating unforgettable memories

A large, curved, multi-level exhibit space with a central circular display of Earth from space. The display is surrounded by a dark, curved walkway with railings. People are seen walking on the upper levels and standing near the central display. The lighting is dramatic, with bright spotlights illuminating the walkways and the central display.

& Lighting

Audiovisual & Lighting

Creative drive and extensive experience guarantee stunning projects. World-class and endless possibilities, all powered by state-of-the-art technology. Reliable, affordable and easy to maintain.

Audiovisual

Being a specialist in audiovisual systems, we offer top-of-the-line audio- and video systems for any setting. Thanks to our long-standing history in this industry, we carry some of world's best audio brands. Our video solutions are very diverse: projection, projection mapping, LCD displays and LED walls, indoor and outdoor, with optional touch functionality to open up countless interactive possibilities.

Lighting

We've created many appealing lighting projects worldwide. This expertise made us a top specialist in lighting shows! Our decorative

lighting installations create eye-catching atmospheres. Architectural lighting illuminates or accentuates buildings and bridges. We'll make sure you have a stunning lighting show!

Show Control

Combining lighting, audio, video, motion, and special effects at the same time, will create the perfect experience for your attraction or visitor center. It'll steal the show for sure! From small-scale experiences to large or even huge environments. Just with the push of one button.

"We can give your attraction or visitor center a complete new dimension, both for new and existing venues. Your guests just won't believe their eyes!"
